POWER INTERRUPTIONS The QUOTA set for the BELLEVILLE RURAL AREA is not

being met by the voluntary savings of the consumers . . . therefore POWER CUTS ARE NECESSARY.

Commencing Tuesday, Oct. 5

. . and continuing until further notice the power will be off each week Monday through Friday

8 a.m. to 9 a.m.

and

2.30 p.m. to 4.30 p.m.

Consumers are urged to continue and increase voluntary savings to the greatest extent possible in order to reduce the number and duration of the above cuts.

POWER CUTS

Acute Power Shortage Makes Power Cuts Necessary In Addition to Voluntary Economies Made Already

The Belleville Utilities Commission has been advised by the Hydro Electric Power Commission of Ontario . . . that notwithstanding the economies which have already been made by the consumers of Belleville, it will be necessary to reduce the kilowatt hours to the quota which has been allotted by cutting off feeders at intervals during the day until the required reduction is obtained.

IN ORDER THAT THE CUTS MAY NOT GOME WITHOUT WARNING

Beginning Tuesday, October 5th Power Will Be Interrupted From 6.30 to 7.30 a.m. And From 5.30 to 6 p.m.

MONDAY THROUGH FRIDAY EACH WEEK

It is believed that the above times of interruption wilk cause the least inconvenience to industry and business.

Consumers are urged to continue and increase voluntary savings to the greatest extent possible in order to keep the cuts and the duration of same to the least possible.

Simpler Forms

Simpler Forms

Though all income tarpayers are contented that filling of returns is a good distance away, they are interested in a statement from Ottaws promising a simplification of form of the document.

The form cannot be too simple. Most people are not used to making out statements and anything that will leasn their teat and relieve them from worry in preparing the annual statement will be welcome.

It is noted that "much of the heavy legal wordage," which marked income fax documents in the past, will not anosen:"

Enter October

Autumn's tiches grow apace as October enters. The green of nature ticms to red and gold and everywhere is the panorama and the some of natural beauty. Yet it is the panorama and the some of natural beauty. Yet it is sufficient to the panorama and the some of natural beauty. Yet it is sufficient to the panorama and the some of natural beauty. Sometimes October escapes it entirely and other times the brings sharp touches of the hastening of autumn on the way to winter.

Canadians have been during the summer welcoming American tourists to their resorts and to all the other interactions of their country.

Canadians have been during the summer welcoming American tourists to their resorts and to all the other interactions of their country.

Canadians have been during the summer welcoming American tourists to their resorts and to all the other interactions of their country.

In the other country have now the time to see their own land when its appeal is heightened by the deeper tones of coloring which the full creates. This is the period for taking in the beauty which beings to this country awarened to cloce over many roots and highways in the resort of the country which sees the beaker time at hand with nuts from the hrown woods. Boys know these days and the infinite suppeal they find in the great outdoors.

To the farmer and the city dweller alleg this month concitions applied the beginning of the cold selson. Outdoor charge now have the last attention of the country weller and the man who lives to the old yet country weller and the man who lives to the old yet country.

weller and the man who lives in the city or town

Progress Never Halts

This age in mechanics and industry and selence has been also as the selection of the control of

Lawrence River, Indeden nocka from trade routes in Tenerit for harbor, handing cargoes of pain kernels and peanut in Arfrica, cement in India, coal on dockside cranse in Paie-cities, handing lead in Australian mines, crushed limes done and grystum in Bouth Africa, cryolite in Spitzbergen. Frankl and coal, from ore, sugar beel, grain, timber and chemicals in ports, factories, coal mines and power stations. That is just from ore, sugar beel, grain, timber and chemicals in ports, factories, coal mines and power stations. That is just a sample of what modern mechanism care do, litting a heavy burden from the arms and backs of men. So do the thousand and one inventions act, some on the comment of the commen

ANNOUNCES

THE INSTALLATION OF A

2 Way Radio System

IN ALL THEIR TAXIS

For three and a half years we have given YOU, THE PUBLIC, 24hour, 7-day a week service. NOW, to our many customers, we wish to announce the installation of a TWO-WAY RADIO SYSTEM IN THE CHECKER TAXIS. The possibilities of this radio car service are amazing! It covers a radius of 40 miles. If you have no phone in your home and an emergency arises - perhaps illness, perhaps a fire, or someone may even have robbed you-JUST STOP A CHECKER CAB. We do the rest. It is the privilege and pleasure of the CHECKER TAXI COM-PANY to be the first to present this outstanding innovation in Taxi Service to the citizens of Belleville.

OUR HEADQUARTERS IS AT OUR STORE, 8 BRIDGE ST. E. YOU WALK IN - THERE IS YOUR TAXI!

is being done.

R. B. Moriey, General Manager of the Industrial Accident Prevention Associations, the Chemical Industries Safety Association of which has been launched the safety drive, and his fellow safety experts attribute this situation curve, and ans fellow antily experts authorize this situation to organisation and prevention. They point to accident statistics which trace 65 per cent of all industrial injuries to human failures. Only 15 per cent, they say, are due to mechanical shortcomings, though these are reported to be responsible for the more serious and costly type of injury.

What War Cost

WIRE WAT Cost

that modern war has meant can be gathered from
the estimate made of conditions in the British sone of
Germany, showing that it will take twenty-free years to rebuild and merely to clear away the rubble would take ten
years. That, any Financial Ford, it he estimate of a group
of experts with hayly conditions.

Commenting on the reverse the Post were widely con-

are maste on normal conditions.

Commenting on the report the Fost says, "Not only must transportation and other facilities be restored before houses, factories and schools, etc., can be rebuilt, but plenhouses, factories and sensons, etc., can be remain, our plantful supplies must be obtained from the outside. The British sone like other areas of Western Germany, hasn't he resources for rebuilding, timber and other construction materiat ceing lacking.

"With the appailing example of destruction in Ger-many before them one would think that no nation would think of risking another war today. But then, of course, no nation which has erre started a war has ever dreamed that its own country would be destroyed."

Strawberry Jam Back in Britain Strawberry jam which long since returned to the tables in Canada has now returned to the tables in Britain and its return is looked upon as a step in the national re-

Strawberries have always held their place an

Strawberries have always held their place among the indee products of the earth. The berry itself and the larow which the preserves possess make certain of that. It is pointed out in the London Times that there are numbers of younger folk who do not know the berry from experience before the war. It is their first takes of the delightful product of the earth and a dish of berries and the ten tolo which they are made must have been one of the

against product or one earth and a usin or certies and the jam into which they are made must have been one of the most pleasant experiences in their young lives. To be without the strawberry so long indicates some-thing of the austerity of the life that the people overseas have been called upon to pass through in the recovery

Sugar's Claim

South Alberta's annual sugar beet harvest is now under way, and again we look at one of our food-processing industries with double interest. The sugar from some 39-00 acree this year will make approximately 100,000,000 pounds of concentrated nutrition to help feed a world which is still before.

pounds of concentrated nutrition to help reed a worth which is still hungry.

Dr. Robert C. Hockett, of the U. S. Sugar Research Foundation, has been making some calculations which are revealing. He states that the sugar from .13 acres is equal in calories to the potatoes grown on .44 acres, the whole flour from .90 acres, the hogs from two acres and the steers from 17 acres. Sugar, he claims, represents the height of land ultisation in supplying energy to the world.—Leth-

POWER CUTS

Acute Power Shortage Makes Power Cuts Necessary In Addition to Voluntary Economies Made Already

The Belleville Utilities Commission has been advised by the Hydro Electric Power Commission of Ontario . . . that notwithstanding the economies which have already been made by the consumers of Belleville, it will be necessary to reduce the kilowatt hours to the quota which has been allotted by cutting off feeders at intervals during the day until the required reduction is obtained.

IN ORDER THAT THE CUTS MAY NOT COME WITHOUT WARNING

Beginning Tuesday, October 5th Power Will Be Interrupted From 6.30 to 7.30 a.m. And From 5.30 to 6 p.m.

MONDAY THROUGH FRIDAY EACH WEEK

It is believed that the above times of interruption will cause the least inconvenience to industry and business.

Consumers are urged to continue and increase voluntary savings to the greatest extent possible in order to keep the cuts and the duration of same to the least possible.

POWER INTERRUPTIONS

The QUOTA set for the BELLEVILLE RURAL AREA is not being met by the voluntary savings of the consumers . . . therefore POWER CUTS ARE NECESSARY.

Commencing Tuesday, Oct. 5

. . . and continuing until further notice the power will be off each week Monday through Friday

8 a.m. to 9 a.m.

2.30 p.m. to 4.30 p.m.

Consumers are urged to continue and increase voluntary savings to the greatest extent possible in order to reduce the number and duration of the above cuts.

The Hydre Electric Power Commission Of Ontario

port our trade minus today bother inherent is a crowing in previous of the control here to the control her

POWER CUTS

Acute Power Shortage Makes Power Cuts Necessary in Addition to Voluntary Economies Made Already

The Belleville Utilities Commission has been advised by the Hydro Electric Power Commission of Ontario . . . that notwithstanding the economies which have already been made by the consumers of Belleville, it will be necessary to reduce the kilowatt hours to the quota which has been allotted by cutting off feeders at intervals during the day until the required reduction is obtained.

IN ORDER THAT THE CUTS MAY NOT COME WITHOUT WARNING

Beginning Tuesday. October 5th Power Will Be Interrupted From 6,30 to 7,30 a.m. And From 5,30 to 6 p.m.

MONDAY THROUGH FRIDAY EACH WEEK

It is believed that the above times of interruption will cause the least inconvenience to industry and business.

Consumers are urged to continue and increase voluntary savings to the greatest extent possible in order to keep the cuts and the duration of same to the least possible.

The Mutual Life Assurance Company of Canada

WATERLOO, OFF.

October 1, 1948.

To our Policyholders:

On September 28, the volume of insurance in force in our Company passed the Milion dollar mark. This outstanding addressemble is highly significant in that 965 of this insurance is on the little people in Canada and RevroundLand - for this is a Canadian company operated for Canadians.

It is a notable milescome in the propries of our Company a long stride forward stone those days over 7g years ago, when the foundary and the state of the state of the country of could make the company.

But, it means more than this.

It is <u>proof</u> of the public's ever-growing consciousness of the advantages of suitual life insurance.

It is <u>proof</u> that Mutual Life of Canada policies fit the needs of Canadians in all walks of life.

It is proof of intelligent and sympathetic service by the Company's representatives.

It is <u>proof</u> that this Company has son a leading place in the confidence of the Canadian public.

The policyholders are to be congratulated on this achieves which has been due largely to the confidence they have sin the Company by professing it to their friends and by inches friends and by the company to the company to the company to the company the present the company to the company to

Broader, safer highways — a vital sid to progress today — will be needed even more urgently in Each year there will be more goods to bring to the nation's markets... more materials to haul for expanding industries... more people travelling between growing towns and cities... and, probably, a larger number of tourists. To handle this increased traffic, Canada will have more of these modern highways — built with the sid of life insurence dollars. For, on behalf of policyholders, life insurence companies havest large sums in provincial bouth which finance This is just one of the ways in which part of every

dollar you pay in life insurance premiums is invested to help develop insustries and public works from coast to coast.

So Life Insurance serves you in two ways. It offers financial protection to you and your family, And it helps make Canada a better land to

New Progressive-Conservative Leader

New Progressive-Conservative Leader
The Hon, George Drew, Fremier of Onlario, now heads
the Progressive-Conservative Party in the Dominion,
having been chosen by a large insjectly at the national
having been chosen by a large insjectly at the national
way of the control of the convention, gathered together from all parts of the Dominion has
a seconded the strongest possible support of the convention,
such as exceeded the strongest possible support of the convention,
such as exceeded the strongest possible support of the convention,
such as exceeded the strongest possible support of the convention,
such as the convention of the party beautiful to the party of the conventions and
minion filtness to leid the party in the House of Commonia.
Mr. Drew has marked qualities. He has natural gifts or public life which he has assisted by years of training
which naturally stratecide first to the Dominion theorem,
high seems of devotion to the principles of public service.
Be served in Goughph his apprenticeship in the municipal
held, then as an official of the Onlazio Government he
as who has evides devotedity to the Province. Ho Onlazio lohas shown that he has been able to give the Province good
owner. His caver has prevailed his qualities as a leader
who hrings results.
His name was on everyou's lips and mind when it be-

where. His cancer has resided his qualities as a leader who heings results.

His name was on everyone's lips and mind when it be-came known that a neyl. leader was to be chosen by the Progressive-Conservative Party, so deeply had he im-pressed the public by his performance in ontice and by the success of his administration. This strong personality has high ideas of public lite and service and his devotion to the cause of providing good government. He has shown ability to select for his Onitario chablest ministers under whose administration Ontario has made marked progress Hence he has become a popular figure in the life of not only Onitario but the Dominion. It is his gift of being abile The new Progressive-Conservative cheletian has never failed to impress the people by his vigor and strength. That energy has yell undoubledly about in he national arena with its wides opportunities for public service.

"Seize the Day"

the conclositions worker neares the goal, providing as backstiffing, as backstiffing, as backstiffing, and backstiffing, and backstiffing, and the same spent themselves. Their livres become dermant and ineffective, since their fas or blins is to steep and "drives much field hours away." The anceins made filege itse brother of Death. Those who are only half-awaks are only half-awaks are only half-awaks. The energetic person is the cherryll, conice for the same of astisfaction comes with all worthwiths economijationes. To quote formerous again, and the same of the s

Ten famous Scottish regiments, including the Black Watch, the Gordons and the Royal Scots, are going back to the kilt after years of service in khaki.

WORKERS FOR NEW ZEALAND

One thousand British tradesmen are being taken to one thousand stitutal tracement are being taken.

New Zealand under the government's immigration scheme
if yea announced recently. The men will help relieve the
labor shortage on the Dominion's state hydro electric
project.

Longer Lives

Longer Lives

The child born to this age has the outlook for a much longer life than his parents and at birth. Since 1900 the expectancy of which has jumped from under dity to an average of seventy years or over.

This is an avidence of the times, with the use of the latest discoveries in medical and social vielnom.

The latest discoveries in the latest with the use of the latest with the latest latest with the latest lat

Should the rate of progress continue in rolling back the curtains to reveal the still-hidden mysteries of science,

the curtains to reveal the still-hidden mysteries of science, older and older generations will be seen upon the earth, and older generations will be seen upon the earth, and the state of the still s

African Peoples Conference

African Peoples Conference
An historic conference has been in section in London,
marking the first time that the peoples of Africa, who are
represented larged by those of their ruce, have come together to consider plans for development of a large part
of their continues. Extra-digit delegates have been attendting of whom 38 are Africans and one or two Indians from
East Africa. The Colonals Secretary is generally the gorernments official attending. Others are delegates of local
East Africa. The Colonals Secretary is generally the gorernments official attending. Others are delegates of local
East African and Colonal East African and Colonal
Temperature and the present attended for the
Temperature schemes of agrants and industrial development are changing the face of large areas of the continent,
and achieves for social betterment, improved education and
health; services bring the promise of better days for the
Africana."

Among those who have addressed or will address the athering are Mr. Bevin, Mr. Daiton and Field Marshal

gathering are Mr. Berin, Mr. Dalton and Field Marshall Montgomery.

Tour West African dependencies—Wigerin, 5 old Cook, Sterra Leons and the Gambia — and the Bass and Cardiserra Leons and the Bass and Cardiserra Leons and Sterra Leons and Leons and Sterra Leons and Leons and Sterra Leons and Leo fore they left Afr

The very scope of the meetings cannot but have a pro-found influence upon the African peoples through their representatives at the conference. Britain's care for the found imittees upon representatives at the conference. Britain's care for the welfare of the peoples will make those countries heirs in a real sense of the modern developments of science and of the best political thought which Britain has reached in her long and finoored history.

During and after the conference a number of trips out.—

Twitten have been arranged for the delegates. They

side London have been arranged for the delegates. They will visit either Cambridge or the Directorate of Colonia Surveys at Teddington and then go on to Windsor. On another day, they may choose between a visit to Eastbourne another day, they may choose between a visit to Sastbourne to, inspect local government activities there or Histon in Cambridgeshire to see a large canning factory and its at-tached farms. There will be a three-day visit to either Manchester or Birmingham to see industrial undertakings

and other places of interest.

On the final day of the conference the delegates will be received by the King at Buckingham Palace.

The roof of the average American house in an average year will receive about 15,000 gallons — or 80 tons — of rain and snow all together.

Against Fires

The whole continent of North America is now obserting Fire Prevention Week. Extra carefulness with fire is necessary because the chances of configuration increases in the autumn and winter months and because there is greater difficulty in batting fires in the cold season. If every household observed the substantial and season of the consequence of the control of the consequence is not in the consequence is not in the consequence is not in wealth and property and in human lives would decline.

The war on fire is not just a momentary blow or a week's fight against the chances of a fiery destruction of wealth and property. It is a struggle which should last the west though

wealth and property. It is a struggle which amount assist year through hurning building is an object beson which should never fall to impress itself upon everyone with saw and terror. A blass out of control is a terrible enemy whose destructiveness is proven in the varablesses and in the deplorable deaths of hundreds of people in Canada and of thousands on the deplorable of the control of the ways inspired humans with a sense of real and error in no one can tell what turns it may take, how it may spread and how it speeds to eat up the work of man's and wo-man's labor, their shelter from-the weather and their one place on earth to which they are naturally attached very

closely.

One of the terrors of fire, the very thought of which is a shock to the young and old, is to see or read of a burning building in which are humans, often with their escape off and otten smothered in their beds by the fumes of smoke or losing their way in the dark thick smoke which choke

them. People therefore have the opportunity of doing some-thing about these lurking dangers, about preventing the start of first by having cellar, basement and attic clear of anything that might be touched off into a fire. Manifold knows that a very great share of human pro-grees is due to what has been achieved through man pro-of fire and the heat it general production of the another than the have advanced far or problems yould never have been pos-sible if there had qubbesn-fife, for fire is necessarily part of

There is a saying that fire is a good friend and a had master. To fight this had master requires all the skill and care of everyone in prevention first and then in battling

the blaze.

First have a number of causes, among them being four which can be removed by carefulness, the Underwriters urgs today. These four causes are use of inflammable liquids without every precaution, faulty heating, careless smoking and derective electrical equipment.

There must always be the realization that a fire calls for fremen to put it out. That call of duty carries a natural risk. Therefore excitessness about fire means thus consequencedously is creating appuish, they consequence the formation of the control of

Truly the firemen is the best friend people have at one time at least in life — that is when a fire is raging. So it is

just as well to keep down the risks of conflagration and so reduce the hazards to which firefighters may be exposed.

Remembered Rain

Kemembered Kain

There have been days of rain that were as good as any days one has known. Bain failing into a forest is an escaled compelling recovery of the control of the control of the forest were the high-pitched insistence of the rain striking the tree tops, the strong low notes of the big drops failing through to the undergrowth and the strings of allied probe familing that ways out along the forest floor. In the

pools finding their ways out along the forest floor.

There are places where it is inconvenient for rain to fall, such as on ruth-hour crowds and baseball diamonds, and there are other good places for rain besides a forest, but few who beguite the spirit, in retrospect at least. More than all sets is the recollection of the green turning deeper and deeper in the slow alide of water on the leaves of the moder forest. Sumpt days are a ready-made joy, but the beholder has to put more into a rainy day, and so perchance gate a great dead back for the feed bin of memory, from which we all draw strength. — Printed Word.

Decency of behavior in our lives obtains the approba tion of all with whom we converse, from the order consist-ency and moderation of our words and actions. — Steele.

We never deceive for a good purpose; knavery adds

Ottawa — (CP) — Nowaday, the budget - conscious housewife should be filling her market-bas ket with fresh fruits and vege tables instead of the tinned vari-

Give winter and the weatherman the HAPPY HA-HA!

Let winter come early as it will-let the weatherman do will—let the weatherman do his worst—you'll have the laugh on them—if you stoolaugh on them-if you stock your coal bin this summer. So why not call up-and coal up now?

As you can well imagine, there's always a big demand

for our Famous Reading Hard Cosl. If everybody waited until the last minuse there simply wouldn't be enough to go round. By ordering now you insure yourself as ample supply of coal—and what a coal! Genu-ior red trademarked Famous Reading!

Third Series of Savings Bonds
The third series of Caunda Savings Bonds is now been the public, the terms being identical with those of the titler two issues. They are offered in denominations of 60, 5100, 5500 and 51,000 with a limit of \$1,000 in any one amer. The yield is two and three-quarters per cent a year and the bonds are registered as to principal, his providing the owner protection against loss. They are the advantage that they can be almost loss. They are the advantage that they can be interested as any time of the control of the two times are the control of the two times are the control of the two times are the control of the two times of the people. Those who have bought two are found and Savings Bonds have found the wisdom of their purhase.

and Savings Bonds have found the watcom or mear purchase.

To have learned to save is a lesson in connon which will always prove of the greatest benefit. The impulse to will always prove of the greatest benefit. The impulse to the provide of the

e-promise of a very large employee purchase under the tyroll Savings Plan.

Vigilance and Faith of Man
A man famous in the history of avialion appeared in
An enewspapers the other day when one of the pioneers
ied in his steep. It was many years ago that the names
Aleack and Everwe linked before the world when the
remediated and cfinn down in a marsh in Ireland. Both
with singlight for their schievement after the spie case
is the six owe the Atlantic. It was not long after that six
men and the steep of the steep of the steep of the
men and the steep of the steep of the steep of the
men and the steep of the steep of the
Room had the suits of the pioneer and when he cross-

aircraft, passed away last week. Srown had the spirit of the ploneer and when he cross as ocean in a modern transport plane recently he re and that "they have taken all the fun out of fiying."

wheth that "they have taken all the 'un out of giving."
Commenting on this, the Hamilton Speciator rays,
whaps they have taken more. For all the wonderful inmounts that man have developed. ". all these 'thismounts that man have developed.". I all these 'thismounts that man have developed.". I all these 'thismounts that the state of the state of the state
taking of all — the resourceful, improviding skill of
ant own sense in battle with the elements.

"There is no such thing as complete safely or perfecin. The greates safely lies, at it dult they war ago, in
a bruttered sighting, crasp-looking supery over the sungattacts, in the courage and "plance and falls of
Atlantic, in the courage and "plance and falls of

Dangerous Character
Jack Frost is too often portrayed as a playful and
sitic sprite, who decorates window panes with gilltering
igns, imparts an appetite even while he nips fingers, rally not unbeneficent.

is is a rank perversion of the truth, and every fairy

It is these things he has in mind, not pranks on winit is these tunings as has in mind, not pranks on win-yeanes or the imparting of pleasure to winter-sport ing juveniles. And if he can get you far enough from me on a winter night, he will kill you, too. That is why we were not intrigued when he arrived the ser night, smearing the grass with white and clouding

giass. We know what he has in mind. — Montreal Herald.

I hanksgiving
On Monday October 11th Canadians celebrate Thanksgiving, a feative occasion which has long been observed
from coast to coast. It owes its origin to man's sense of
gratitude ain thanksgiving for the growth of the year and
the bounty which Providence and nature have showered
upon the people in this favored land. It is an intensely real
modern version of an immemorial custom for most agricultural bowheap of the morit of the coast of the coas monetary matter the presence lead. It is an internety real modern region of air immensural custom for most agricultural peoples of the world in its ancient days and since have set actic one day during the autumn equipment (express their gratitude for the fruittiness of the earth.) In ancient Rome the period was married by feasts and parades in which corruscopies — the parades production of hards. The production of the prod

the United States, President Abraham Lincoln appointed the fourth Thursday in November as an annual day of

the fourth Thursday in Authority maniformal thankparing.

In Cahada the accasion has been observed annually sine the Marquess of Lorne, then Governor-General, fixed Nov. 6th, 1879, as a day "to attend church and give shanks for the blessings with which Canada has been fa-

In the church there has been an immemorial festival harvest easan with special services. These services are Il held on various Sundays towards the close of the

wing time.

Thanksgiving Day, combining religious and patriotic ror, as well as recreation and especially family reunions. or, as well as recreation and especially family reunions, ch are so apt at this season of plenty when man's sense ndebtedness to Providence for the riches of the harvest of indelptedness to Providence for the riches of the harvest is felt's in one of the most popular days of the year. It has lost some of the religious ferror that impired it years ago, but it brings together friends and means the orientees of but bloesting together friends and means the orientees of but bloestings of Projectics in wealth, produced by the felds. It is a resumenable time, the season is faiting and it crowns, the york of the year and the harvests which have been gamened. Over all its the previous goes of man's duty of gratitude to Providence for the kindly and being intensees which, have crowned the end of the governe

Easen of the year.

The a day of profound appeal. During the First World War the religious aspect of Thanksgiving became deeply rooted and in the years following 1918 to 1939 the day generally fell on Armistice Day, Nov. 11th. This sense of man's obligation for victory and his solemn memories of the sacrifice of that struggle for years pervaded the observance. But representations by Veteranic groups due to the Dominion, establishing Nov. 11th as Remembrance Daywing the Company of the Section 1918 of t

sion would be unthinkable.

Newfoundland and Confederation

Ottawa, the Capital of Canada, which soon will be a nation of ten great Provinces since Newfoundland, Britan's first colony and one of the first lands of settlement in the New World, has decided to unite with the Dominion and become the latest of the Provinces, is at present the scene of conferences of spokesmen of the Province and Dominion working on the details of the entry of the island.

semanton we rang on use details of the entry of the island. The coming of the colony into the Dominion Confederation is inspired with hopes that the union of the Confederated Provinces and Newfoundland, their neighbor, will be of mutual advantage to both and that in their union will be greater strength for all of the ten-Province Dominion of Canada.

Canada as always have record of her and the Canada.

Canada has always been proud of her good neighbor and will continue to be when she is one of the Province and part of the Confederation of the Dominion.

The first use of granulated sugar apparently took place in Egypt in the seventh century A.D.

and Ranger Hockey

Players Injured

Montreal Oct. 5. (CP)—FOR

Montreal, Oct. 9. (CP)—Four New York Ranger hockey playcrs were injured in an automobile accident near Rouse's Point, N.Y., Friday night, and the hockey world today wondered how severe a joil this would be to the National League team which opens its schouls next Thursopens its schouls next Thurs-

Injured when their car collided with a truck five miles from Rouse's Point on the Canadian side of the border were star cenred Buddy O'Connor and Edgar Laprade, and defencemen Frankie Eddolls and Bill Moe

jes will not be known until late t today when doctors take X-rays and complete their examinations. All four were brought to Western Hospital here following the accident.

the players listed the injuries as follows:

O'Connor, possible broken ribs and severe bruises.

Eddolls, lacerations of one knee;
Laprade, broken nose; and Moe, a bad head cut which required 15 stitches to close.

stitches to close. Hospital substitches said all four were "resting comfortably early today. Dr. Little said Friday night that Laprade's nose in jury was causing him great pain but otherwise the former Port Arthur amaleur flash was in good condition.

Could be Severe Blow

If any of the four are to be sidelined for any length of time it would be a severe blow to Rangers chances in the sarty part meets Montreal Canadiens here in their first game next Thursday. O'Connor, runner-up to Montreal's Eimer Lach for League scotling bonors last season, and est attickhandlers, are the club's best two centermen. Moe and Eddoils, hold down regular de-Eddoils, hold down regular de-

best two centremen. Moe and caldolls hold own regular defence berths. The control of the control

are the players were the players were returning after a three game returning after a three game. O'Connor, at 145 pounds the lightest forward in the N.H. hat winter coloyed the best season of his seven-year National League career, winning both the player and the Lady Byng award for most sportsmantike player.

the National Hockey League it
ists had suffered in six exhibitie

It was almost a personal vitory for Bas Bastlen, little French Canadian goalle from Timmin who provided brilliant back-stoping to back up his mates soldefensive play.

The American Hockey Leagplayers never gave Toronto sharpshooters a chance to get so but Bastlen, understudy to Thi

tack: score might have been a 3-3 til except for the bankhing of Bill Etinicki just after Gus Morison counted the third Toronto goal midway through the finale. The goal did not count. Pittaburgh scorers were Eldred Kobussen, Sid Smith and Pete Languille. Tostolio and Howis Mecker.

New York Rangers suffered a eavy blow last night when four tar players were injured in an utomobile accident near Saranac ake, N. Y. Hort were star centres uddy O'Connor and Edgar Larade, and defencemen Frankie ddells and Bill Moe. O'Connor Bears of the American Eo-League. If these live men di er, the Bruins believe they hoe a bad head League race. rmine Bow seri-

BIRTHDAY

(CP)—Comedian George Robsy
79, celebrated his Soth birthday
while on tour here.

Robey was born in 1869 but ha
y always argued that the day or
d which he was born was his firebirthday" and this counts lew
birthdays for his first year or

decorated only with the likener of two eyebrows—long his trade mark in the entertainment world "Retire?" said Robey. "What y A young fellow like me?"

EMERGENCY APPEAL TO MANUFACTURERS

The extreme seriousness of the power shortage makes it essential that every means be used to relieve this critical situation.

If you have steam-driven or standby generating equipment of any kind that is not at present in full-time use, which could be utilized to augment the Commission's available resources, please wire us collect, giving full particulars.

The gravity of the situation can not be over emphasized. Your co-operation in this respect is vital if the present high level of production is to be maintained.

hanksgiving is more than an Autumn Holiday

Thanksgiving is more than an Autumn holiday .. We more than turkey and sage and pumpkin ple .. more than a brisk walk in the country or a last weekend at the cottage.

Thanksgiving is a day for all of us to stop and think — seriously and hard—about the things we take for granted every other day. It's a day to take stock of our advantages, our assets — and to be thankful that they are so many and so great.

We have the blessing of Freedom.

Not the vague, high-sounding orator's word but the plain, practical fact. Freedom to cast a ballot the way we want it. freedom to praise or blame our government, as we see fit ... freedom to speak without hindrance and live without We have the blessing of Abundance.

In this great, clean land of ours, so rich, so lavishly endowed, fifthere is all around us. In good, brown earth and golden barrest . In fruitful valleys and mighty forests ., in busy, hard-working cities .. in the faces of a free and harm smooth processing the contract was a contract to the contract

We have these blessings to be thankful for. They are part of a hard-won heritage .. and they are ours as long as we are prepared to work for them and, if neces-sary, fight for them.

To give thanks for what we have. "

.. to re-affirm our faith in freedom and our determination to preserve and cherish it .. that is the true meaning of Thanksgiving.

THE STORE WILL BE CLOSED ALL DAY MONDAY --- THANKSGIVING DAY.

BELLVUE ACCEPTANCE

Mr. King's Illness
he news over the weekend of the illness of Prime
ter King in London, England, where he was to attend
tommonwealth Conference came as a surprise and ek to the Canadian people and to the peoples of the er nations in the Commonwealth. He will require a thy rest and it is thought he will not be able to attend

issectory rest and it is thought he will not be able to strend up of the meetings of the conference. The heavy strate of public life has fallen on Mr. King is these on so many of those who occupy state positions of grave responsibility. Duty makes cause a strain that any people never have to undergo. It is the penalty resting upon those serving their country and public life with their whole life and heart. Mr. King has had a long and active career in the public life of the Dominion and has the penalty of the country and the con-tit is to be hoped that has not successful. It is not con-tain the country of the country of the country and the life is to be hoped that has not successful.

nal health.

Mr. King was to have headed the Canadian delegat Mr. King was to have headed the Canadian delegation but Conference of the Componwealth and there be id have appeared as the prime minister of a common-th nation with the longest of the service of any prime sizer in the Commonwealth. Only a day or two sgo poke to the United Nations General Assembly in Paris ne spoke to the United Nations General Assembly in Paris where be stressed the need of a worldwide community sense among the nations of the world and proposed that the Parisis Commonwealth might well serve as an example of that world community and he made it clear that history determined the property of the property and events show that no people can defend its freedom is the present day world solely with its own resources.

The Churchill Speech
Former Prime Minister Churchill has spoken clearly
the world as he showed the need of defence and urged the world as he showed the need of defence and urged at the nations come to a showdown with Communista useful before the latter get the A-bomb. Bluntly he told least that if she desired to see the military use of the only-energy outlawed she must assure humanity by them Slonder ham words. One of such actions should to release her gip on the satellite states of Sunope, he do "tet them return to their own country, which is one

sous evil war in Canaa.

Mr. Churchill referred to Soviet restrictions on travel traffic and asked that Russians throw open their vast lons "on equal terms for the ordinary travel and traffic

"Let them give others the chance to breathe freely let them breathe freely themselves," in suggested. The wartime leader of Britain asked for a shifwdown is there was yet time. What would happen he asked n they get the A-bomb?

To the other nations he sounded this warning note

to use other nations he sounded this warning note the did not believe "we have a limities period of time fore us" and warned that "we ought to bring matters to lead and make a final settlement, we ought not to go loggi slong, improvident, incompletent, waiting for someng to turn up."

ing to turn up."

In his opinion—he said it with deep sorrow—"the only
re foundation of peace and of prevention of actual war
the upon strength." For that strength he pleaded.

Down in Montreal a band of Boy Scouts are endeavor-to guide pedestrians at intersections so that the walk-

may learn to cross safely.

Crossing streets is not so simple a thing. Often one
wonder that there are not more accidents for in tooes wonder that there are not more accidents for in to-ary's traffic there are the motor with its weight and speed, be crowding of traffic and the walking public. It looks like a puzzle but it is not and should not be, for both walk-ing and motoring folk are governed by the rules of the raffic and the responsibility of not causing an accident.

SUNTERS that reach around the world

> End to end, the counters of Canada's 3,330 branch banks would stretch only a few miles. Yet they reach farming, lumbering, fishing, mining and industrial communities right acre Canada—help move the products of these areas into the markets of the world.

Through their foreign branches and correspondents, banks help to find customers for Canadian goods, help bring back the goods Canada must buy abroad.

They provide Canada's traders with the financial experience and facilities necessary to the two-way flow of our foreign trade . . . which totalled a record five billion dollars in 1947.

How better magnets make jobs for Canadians In ancient days, the lodestone was the available permanent magnet and was known in almost every country. In 1492, a piece of this mineral actuated the compass which guided Columbus across the Atlantic. nice guiced Columbus across the Allantic.
Todey man, through research, has learned to make magnets to suit many of his requirements. Recently a small experimental magnet was made which lifted 4450 times its own weight. This magnet was made of "Alnico" an alloy of aluminum, nickel and cobalt with iron. summourn, nicket and cobait with iron. Because of its increased efficiency, this new magnetic being employed for a wide range of uses. It has brought about a revolution in the design of meters, incruments, racious and generators, and is finding its way into numerous other industrial applications. applications.
The growing demand for magness of this kind provides an entirely new marker for Canadian Nickel. This new marker creates new jobs for Canadians both in the Nickel Indust and in industries which make magnets and product containing the magnets. Thus does research develoneer products, create more employment. Canadian Hickel .

Civil Aviation's Big Job

What tonnage United Kingdom planes are transport-ng into Berlin to maintain the food supply of the western section is an interesting sidelight on the biggest job in vitil aviation which British planes have undertaken. The aviation which Briush planes have undertaken. The I weight of supplies ferried to Berlin in civil planes up september 25 was 16,000,000 pounds. This included 0 tons of coal and nearly half a million gallons of gaso-

In this sirifit the work of British and American air wors is being augmented by civil air reighbers flying come bases in British. A special fixed of transport planes as organized by British and British and American air British and British and British and British and American are all the British and British and the British and the area of the British and British and the red day the fixed a will be increased to forty-one. These crews are doing a magnificent service at a crical point in the relations between Russia and the other compying powers. . In this airlift the work of British and Amer

anying powers.

Another factor in the situation is the ordered increa-Another factor in the situation is the ordered increase of the food ration in the western sectors of Berlin, effective on November 1st. The 200 calories increase will bring the daily allowance up to 2,000. This is one of the results of the steady accumulation of food stockpiles being built

Saving by Control of Farm Pests

Saving by Londol of Farm Fests
Canadian farmers spent approximately \$10 million on
et control products in 1647. This figure, obtained from
e first "Special Surry on Sales of Pest Centrol Products
Conadian Registrants," Issued by the Dominion Sureau
Statistics, is about one-half of one per cent of the gross
m locome of about two billion dollars for the same

Disposar that Canadian farmers spent relatively little in the control of pests which yearly consume and desired as a story an amount estimated at about 17 per cent of the national farm income —\$550 million worth of ford which the farm produce. With modern could be a switted with the control of the control

Technical voctors in coincide have always been interested in minding one extent and nature of the losses caused in finding incention and interest in the losses caused of the control of t

out barns; and rolenone, thosy anatas and DDT applied the animal during the ammore seaon to control offers. Control of seals weeks in grain and other crops by a use of a, that and other materials would result in great of admitting the control of the control of

The Pesticides Inspection Services of the Dominion The resultates inspection herroes of the Dominion Department of Agriculture are working contantly with other Government services and industry, to see that effective pert control products are available. The quantities of the most efficient pesticides shown continue to increase, while those of doubtful and superseded value are fast discussionable of the content of t while those of doubtful and superseced value are rast dis-appearing from trade channels as a result of this co-oper-sion and effort. Buyers now, more than ever before, can be assured that the pesticides they buy will do the job claimed for them on the label, when used as directed in their campaign against the pest foe.

A determinate purpose in life and a steady adhesion t through all disadvantages are indispensable condi-

ns of success. — Punshon. Our deeds determineds. — George Eliot. eeds determine us as much as we determine ou

Rainfall

Often people, especially those who are not brought into close relaxonship with the visible benefits of the gentle rains or downpours within trou time to time replicable the mosture on the surface of effects of eraporation as a result of wind and couplingly, look with a certain samount of distaste upon the weather if there should come adealy of rain when there happens to be some plan that has thereto to be interrupted such as a holiday trip or a write to the woods. Yet that may be a holiday trip or a write to the woods. Yet that mappon that plants. In the re-to-money nature his brought such forces and elements into the harmony which makes the world what it is, offerinto the harmony which makes the world what it is, offer-ing food and drink and shelter to the increasing millions

ing food and drink and shelter to the increasing multions of maskind from contings to continue at a section and the School and san. In Onizato the scarcity is fell because here it is the themest and calls for the co-operation of everyone to con-serve light and power every hour of the day and night it is possible to do so, even if this hurts and until it hurts. Monday's rain may have upset some Thanksgiving plans but it helped in some measure because in the Gati-neau area fairly heavy rain did fail. Fet most people were ready to be demide some of the project planned for the day if only it would plane, the wind and the rain, the moun-tains, the valleys, the oceans and man are all involved in that great natural miracle which makes this earth habit-hee. Earth has plenty of water in her oceans which evap-

that great natural imracle which makes this earth habit-able. Earth has plenty of water in her oceans which evap-oration and currents of air carry to many different parts of the globe and make the grass and flowers and trees to spring and grow so that life is nourabled.

At this season rain can be a profound blessing for it stores up water in the great reservoirs of the hydro electric

After all man should be thankful for these normal After all man should be thankful for these normal leadings of abundance of water and for the control which modulates have a feet of the control which modulates have flatined by the use of water descending dama faired and, this flow spelling energy which can has harmessed to bear a great share of his burdens, to do the work formerly done by human muscle and brawn and by the work horre.

The whole system, from the wind and the moisturniades clouds, to the stream, to dam after dam and powerhouse is a sequence which should give man intense satisfaction as it relieves him of much heavy labor and achieves results manified could never have won't

labor and achieves results mankind could never have we

labor and achieves results mankind could never have won without this hybrid evelopment.

How much we are obligated to our water powers we do not always weigh at their proper-radue. Buch a time as this offers a corrective to the common view of taking rain and waterpower for granted without recognizing how closely they are related to man's activities and his progress and happliness.

Dr. Pelham Edgar .

Dr. Pelham Edgar. To unitsanding figure in the passing of Professor Dr. Pelham Edgar, for many years on the start of victoria College in the University of Tocrotto incharge of Prench and English. Many thousands of structures and the literatures and the news of his death was incentified and their literatures and the news of his death was incentified and their literatures and the news of his death was incentified by those who had at before him in college and in-accessed their knowledge under the shartsuction of the structure of the professor of their professor of the professor of

him the mark of a distinctive and lovable personality which appealed to all those who attended his classes and all others appealed to an who knew him.

erved Canada during the wars with the army and

cavil service.

This great Canadian was one of the finest developments of Canadian life and culture and he has left his impression and influence on many lives and on his country's literature.

It many times falls out that we deem ourselves much deceived in others, because we first deceived ourselves.— Sir Philip Sidney.

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Quest) THE FOOL

Tainking more of the need, and less of the cost, The gaffery he had at the less the new remarks of the less than the less the new remarks of the less than t

than go to his bed Still keeping the dollar some beggar had fed.

"I'd rather be beinful than selfish," said he. "If sharing is folly, then folly for me Since no man takes money away when he dies, while living I'd rather enjoy what it buys."

QUAKER OATS EVERY DAY.

in this new RCAVICTOR Automatic

It's constanding every way you look at it or listen to fit! It's a powerful standard broadcast radio with an edge-lighted full vision dial out where it's easy to use. It's the world's most is a easy to use, it's the world's most famous phonograph—the Victrola— with an exchaive, gentle-action RCA-Victor automatic changer that plays as many as 12 records with the "Silent phirs" permanent point pickup—
needles to change.

Just wait 'til you hear
how smooth and mellow

Victor dealer's in its rich clare burl finish. The VRA-56X is tops in

automatic table radio-phonographi values, at this super-value price of only \$129.50.

it sounds ... for records, for radio.
That's the "Golden Throst" tone
system — with far more than usual
power for a table model. Turn it up,
turn it low — you get full rich values
the consumptions level.

NEW LOW PRICES ON ALL RCA VICTOR RADIOS RCA Victor and its dedors

Their Own College

British countrywomen have now a college with a ree of studies which is specially adapted to their inter-and callings. The National Federation of Women's little has just opened for this purpose a pleasant airy home, to be known as Denman College, set in 100 of parkland. Eventually it will accommodate sixty d. Eventually it will accommodate sixter courses lasting about a week covering d varied syllabus. This ranges from citisenship ork quilting, from food production to family life

a range of subjects must in any country just on it to the women whose preparation for the dom-should be, it seems to many, practical and cultural is achool as Demnan College will be. bitlain as in Canada as elsewhere the Women's or achieving a wide influence which will also mark on the nation. No finer work can be done

nybody than by this organization of institutes.

Growth of Interest in Reading

at more and more people in this age are spending issue time in reading is shown not only by mount-is but by steadily increasing library circulation and stribution by the bookclubs. Iding is said to have the four main reasons, to in-

neral learning, to add to knowledge of a specific to impress others—a lesser reason, but still a mo-one—or for pleasure. And then comes the reward,

one—ete pleasure. And then comes the reward, the reason may be in reading belost people find carpet that can transport them to new fields of re, selence, history, business achievement and, says the floyal Bank Monthly Letter.

The season of the selection of the letter any that the movies, thousands of dollars six, he book clabs and aftered publicity have all set shares in blowing up the best seller to larger proportions. But it is undentable that best sellers achieved only through public approved. Whether two peaces of mind the seller to larger two peaces of mind the seller to larger through the seller to the seller to the seller than the se

esides the sky-rocket type of temporary best re is that other kind, the "cumulative best seller, s on adding readers and buyers over the years are more of these than of the passing fad of best his great group contains mainly the classics— Travels, Robinson Crusoe and of course Shake-

excelled the next-best seller.

has probably excelled the next-best seller. The letter may surprise some persons who think that reak hooks are too heavy and too difficult to be read-ned as a result never attempt to read them. "If they ob shy away from the very names of Piato, Milton, aligne and Tolatot, they would find that these and other writers are popular. They concerned themselves the training that they concerned themselves the wroblems of their items and their conclusions. not for professors. They concerned arrothern of their times and their conclusions are pileable to living today." The reason is that the ital human problems have not changed, man-momented with happiness, success, truth and

try rise to a new place of prominence, Canadians sined confidence in themselves in literature as in

assume of enort.

That this country is producing one hundred works it also are regal literature, some of which reach international imports of the country is produced to the literature of the country in the country is the country in the country in the country in the country is the country in This encouraging fact has led William Arthur Deacon

encouraging sizes has sed William Arthur Deacon
The Milliam Authors' Association to
the Canadian Authors' Association to
that "Canada's literature has commenced to exsoul of a people just awakened to the fact that it
is converse—a distinct and continue to the fact that it
is converse—a distinct and continue to the fact that it
is converse—in distinct and continue to the fact that it
is converse—in the fact th

the soul of a people just awakened to the fact that it soul to express — a distinct and unique soul—and that st solve its own problems on its own terms."

Wife. Deacon points out that Canada has three novel-seah of whosh has taken in one-quarter of a milliom are from a single book and that the more successful dains writers derive 75 per cent to 30 per cent of their new from the American market.

WHERE BATTERIES MUST BE DEPENDABLE!

At the first sign of fire, the forest ranger instinctively reaches for his telephone, confident his call will go through.

To justify the confidence which has been built up in the reliability of telephone service, the telephone companies leave nothing to chance. From long experience their engineers know that Exide batteries are thoroughly dependable. KEEP THIS FACT IN MIND WHEN SELECTING A BATTERY FOR YOUR AUTOMOBILE.

> Ask the Exide dealer in your community to check your battery every two weeks. He will help you get the most life out of your present battery and, only when a new battery is essential, will he recommend the proper Exide to suit the electrical requirements of your car.

EXIDE BATTERIES OF CANADA LIMITED

Longson to Meet Masked Marvel In Main Bout

Plenty of action and excitema is carded when the main bout the Memorial Arens gets under the Memorial Arens gets under what will a Bill Conference in the Masked Marvel as what will happen in larde to profess the markets. The larde was the dependent of the decision was white was the decision was white properly an excitation of the decision was within the decision was the markets.

for carrier in Dalleville, life a week. For each in Commiss, 86 No per year; thus fee six months: \$1.75 no. To make to U.S.A. all poor year; thus fee six months: \$1.75 no.

New power cutoffs may come next week, the Hydr ministon said in a comment on the situation which he aloped with the coming of autumn and the longer

developed with the coming of authum and the longer inghis and the power shortage.

Chairman Saunders of the Ontario Hydro Rischric Power Commission has hopes that the regulations now in force will produce the saving which is necessary. He has cleared that the Province is weating power at a rate which would it saved supply all the needs of Ontario.

Response to the appeal of the municipal commissions and the Ontario Commission is no doubt and the contario commission is not doubt an expensive the same of the probability is also expensed to the probability of t

Guides/ for Pedestrians

The safety that crossing a street with the green light at the Bridge methods to discept draffic instructions not only court disaster for themsetres but may bring injury or owner to others. Those who obly traffic rules have very reason to demand that all follow the traffic directions and to act in accord with the spirit of the directions, always of octree to have as their main aim. He prevention of a crash or an injury to some pedestrian or motionts.

The safety of the safety days to the safety of the safety of the safety days of the safety days of the safety days of the safety days, but that day is past for traffic morrement is one of the factors of this age with correct driving methods calling for accuracy every foot of the way.

Canada and New Canadia

Canada and New Canadians
Canadians have been asked to help the newcomers
from many lands who want to become Canadian in spirit.
The enterprise and courage shown by these jumps
in the control of the con

part of the world offering opportunity for the exercise of resedom.

Secretary of State Otheon has pointed out that Commission of the approach newcomes with the object of upsetting the high ideals and unsettle them. Consequently he advises that the responsibility rests on the community—you and me, list next door neighbors. Commission can look beat with in "you the schlere-Cameliane can look beat with a presence promisent citizens of Canada and have been able to make worthwhile contributions to the national welfare.

Mr. Gibson urges more extensive training in what democracy as the western world knows it means to the individual citizen. These newcomers will dedicate themselves to lives of unclaimes and benefit to the country in which they are setting up their hous.

Which they are setting up their hous.

Our ways, there will be many opportunities for pleasant surprises. The seal and energy and the spirit which directly the period of them the opportunity for which they have been looking. They have everything before them and they will make the best of these opportunities with the wholchested co-operation of those direct canadians whose forbears themselves were limited. The appeal which Canada makes to them is one of across and that is what they are ready to cit with the factors and that is what they are ready to cit with the factors and that is what they are ready to cit with their excess of the services and that is what they are ready to cit with their excess of the services and that is what they are ready to cit with their excess and the services and that is what they are ready to cit with their excess and the services and their interests and their with their excess and the services and their with their excess and the services and their their excess and their canadians and the services and their their excess and their canadians where forbears themselves were immined to the services and their their excess and their canadians are ready to cive with their excess and their canadians and their canadians and their can

grarts and built this nation on a solid foundation.

The appeal which Canada makes to them is one of service and that is what they are ready to give with their rich and sealous spirit. And there is so much in this country that can be offered these new citisans, who are hereful as heart. They come to set up their families in a new world of freedom and enterprise.

COMPROMISE INITIAL IN PRESIDENT'S NAME

The President of the United States and Democratic fibres is consistent when the candidate for re-election signs himself "Harry S. Truman" but the "S" is just a middle initial. He has no middle signs of the way sheet. When some convey and discontinuous course and support of the way sheet. When some many and discontinuous course and discontinuous course and discontinuous course.

When Truman was born his parents tried to decide whether his middle name abould be "Solomon," after one grandfather, or "Shipp," after the other. They dion't offend either. They registered the baby simply "Harry 8," says The Canadian Press.

ectation Ration. For corridor in Sulperville. The a week, Fr medi in Capacia, \$6.00 per year; \$1.56 for six mass and to think \$6.10 per year.

Consider Front a materialy artificit to marker remainstant of all several points of the Consideration of all several points of the Consideration of all several points of the Consideration of the Consideration of the new points of the Consideration of special decisions of providing the consideration of special decisions.

Belleville's Community Drive is On Belleville's Community Chest or financial campaign for a minimum of \$16,000 which is necessary of the order of the work of \$40,000 which is necessary on the order of the work of \$40,000 which is necessary on the order of the work of \$40,000 which is necessary of \$40,000 which is now he will be offered with the order of the services which they ofter individuals, families and the community. Such of these three organizations has budgleted cost and maintenance of a review of the order o

an observer out me announcement more centre sought by carriers.

21,000 sengent in subscriptions here is aligned; seen the \$1,000 sengent in subscriptions here is aligned; seen the cost solar per capits, while in other communities the can-vame is for a higher per capits.

All know that the rising cost of living has been one of the problems of these past couple of years but in spite of this, there has been in the period of the problems of the been of the communities. The period of the communities are reader-ing. This is a proof of the efficiency of the management of these books:

of these bodies.

Every citizen knows the work these organizations in doing for the good of the citizenship of Causais, the country of the co

the services.

The campaign goes forth as a joint appeal because of the economy of operation. It is a necessary appeal for not to render these great services for the beneath of our fellow effizient, young and old, would be to fall in rendering a secred duly and such services are vital to this and every community for the sales of the members. Who would think the control of the sale when the winted into of the sale when the sale of reclars of the communities themselves. Who would think et doing without the visitation of the sick, per-natial care and instruction for expectant mothers, investigation of neglect of children, adoptive procedures and the counsel and guidance these organizations can render. No one can fail to see the need in organizing camps and recreation, supervision of play, issedership training, character building, per-nably development and health and physical training.

Recalling what these individual services do, it is very say to see why there should be a ready and generous response to the appeal of this on larger that the VON, is a convener.

canvasers. Citizens will not forget that the V.O.N. is a non-profit health service coming for little or nothing and so often in cases of dire need, the Y.M.C.A. serving in lead-erably in recreation and in the all-round attitude toward life and its problems and the Children's Aid Society en-deavoring to prevent delinquency and to improve the con-dition of home life in numbers of cases.

dition of home life in numbers of cases. Where the services of these three bodies touch the lives of individuals, families and the entire community as they do in Belleville and where the benefits which will derive from this minimum budget which is now urged upon the attention of the elitiens are known, there can be no doubt into there will be a ready and the continues who present the property of the continues of the propine of Belleville re-smootling reservative to the canarys. sponding generously to the canvass.

Belleville's objective of \$16,000 is the very minimum

ossible for the three agencies have trimmed their budgets and this canvass is to raise the money to balance the in-

and this carvass is to raise the money to balance the in-dividual budgets, without curtailing any of their services. This community chest is for local welfare work carried on by three vital branches of local organizations for the good of individual and community.

GOOD CITIZENSHIP is a lot of little things

UNITED NATIONS DAY-October 24th

This is a time for each of us to reaffirm his determination that succeeding generations shall not suffer from the scourge of war. It is the privilege and duty of each of us to take a personal interest in the activities, the aims and ideals of the United Nations. Our government can act intelligently in our behalf only when it has the support of an informed people. It is your duty and mine to learn all we can about the work of the United Nations . . . to take a keen and individual interest in its activality. That is "Good Citisenship".

TODAY'S CROSS-WORD PUZZLE

Little Benny's Note Book

Pop was late for supper had I as alting on our frunt steps mary waiting for him to come me. Which he finely did, and did, G, pop, where you been? At the effice, alaving like a we, pop said, and I said, Well minisks, pop, ma's got everying raddy and the's been look-the clock and claiming you of the form of the control of

b of talefoned if you were ing to be late. The irony of it is, I tried to taour balf a durrent times, and i line was birry every time i it just made me later and arrently filter, pop aid, and i d, Heck, pop, I bet that year on the from. It couldn't of been bixtler if in elefant had been on it pop aid. Anyway, I'm as innocent is a new born baby, and yet your mother probably wont believe a word of my story, he said, and a said, Then why dont you tell her another one, pop?

By goilles I will, pop said.
And he went in the house, and

by solites I will, pop sald.
And he went in the house, and
ma said, Well, here you are, home
st last, and hooling as if butter
wouldn't melt in your mouth,
boart you happen to know there's
an instrument callieds a telefone?
the said.
His dear, I don't know a thing
except that I swit to be flogged,
altinued alive, drawn and quartered, intered and Sethewed said.

y 45, he said, and ma said, there's muthing on the stove that il, an homest-confession is good can spoil, she said. the soie. I'll grant you that And we started to eat supper, tch, so for land sakes don't me and pop winking each other is bed about it. After all, private winking

AN OPEN LETTER

Yes, we have hid a very disastrous fire, and for the moment we are out of business, but only for the moment, and I want to take this opportunity of thanking our many friends and customers, who made our business possible. Thanks to you, we had one of the filnest radio and appliance stores in Eastern Ontario. It will take some time to have our store remodaled but in the masses. Eastern Ontario. It will take some time to have our size remodelled but in the mean-time we are located at 20% BRIDGE ST. E, where in a matter of days we again expect to be doing business and have merchandise to sell with such famous names as General Electric, Thor, Stromberg-Carlson, Kelvrialor and many other good Canadian Manufacturers.

We also hope very shortly to have our Service Department in operation again, but in the meantime will you kindly be just a little patient with us until we can get or-ganized once more.

May I once more thank our friends and customers who made our business possible and ask for your continued friendship and

Tourist Visitors

Tourist Vasitors

Percents early in the year about the magnitude of caminase tourist industry have been substantiated. In all litelihood the Dominion has had the largest flow of tourists, in its history, Most of the Provinces have reported greater volume of visitors than in any other years. According to reports mades at the Dominion-Provinceding to reports made at the Dominion-Provinceding to report and the province of the Contenues the gains were from case as the province of the Contenues of t

Every Canadian has an interest in this appeal which Canada has for the visitor. This a sign of the wealth of this country in scenery an dattractions spread across a vast expanse of thousands of miles.

Touch of Colder Weather

Touch of Colder Weather

This part of Oniario escaped the sprit of winter's blacts, such as struck Northern and Western Oniario on Standay algit. Heavy mow, soaked with mediature full sections of the watern portion of the Province breaking wires and brambase of sees.

Prom now exact than they have up to this time. The same of the contract of the province breaking wires and brambase of sees.

Tour now could be the contract of the province breaking wires and brambase of sees. The sound that the province breaking wires a more with the they have up to this time. The same passed wary, which mean fast winter's blasts are coming peacer. However there are almost two weeks yet to be great fallowen festival which is celebrated without accompaniment of snow.

The coming of colder weather does not reduce the pleasures of the igness outdoors. They still are boundless.

Year Newcomers Will Remember

Town Rewconders will remember the year in the minds of sens of thousands of persons who have entered Ganada simulgrants to begin life in a land which easis the very spell of treedom on peoples of other continents. Over the property thousand owncomers have already entered this year minds the sense of the person of the perso ast safely settled in many parts of the Dominion before

Mest's early settled in many parts of the Journaison beared by parts' end. be parts' end. be parts' end. be parts' end. to the interest that of the newcomber. This fact and the thought of the attraction which draws men and the thought of the attraction which draws men and the thought of the attraction which draws men and the thought of the attraction of the second that the second of the second that the second of the second that the second that the second that he attraction the second that the second proof that the videous of opposituality for duraties aprited who see near freedom and opposituality.

These newcommel proore that the videous of opposituality are yet to be seen. Their courage and strong hopes that the second the second that the second the section of the second the second that the second th

Are the emigrant from the United Ringdom there must of course be a special appeal and the welcome to him must be warm because of the kinable ratisting between the scoople of this country and Britishn. And for the emigrants, from other lands in Europe or elsewhere there must be counties admiration for their decision to start life anew on a nonnecessaries.

ne young country.

Canada is gaining many new citizens who will make their contribution to the riches of the life of this country and help fill up the great spaces between the Atlantic and Pacific cocans.

More stringent power regulations may be near if the present efforts do not show that they are adequate to conserve smilleten power. The Chairman of the Ontario Bydro Electric Commission has stated that now is a test period and that the Commission will meet on Thursday to the the series of the control of of the c view the entire situation.

It is worth the attention of all consumers to make stary effort to save energy and so avoid if possible necessity of more severe power cuts.

Virtue and decency are so nearly related that it is diffi-cult to separate them from each other but in our imagin-ation. — Clore.

COMPLAINTS

Multiply your annual income by the number of years you expect to work before retiring. This is the money which you, your wife, and family are counting upon to provide the necessities of life—food, shelter, clothing-throughout future years.

The only way to make sure that all this money isn't lost to you and yours, if you should become totally disabled or die, is to have adequate life insurance and have it properly planned to serve your needs. Looking to the future, Canadians have already

arranged for One and a Half Billion Dollars of life insurance through the London Life. You may benefit from this Company's experience by getting in touch with a London Life representative.

THE BREDEN-SAVOY

The Arabina delegates to the United Nations General Assemble in Paris were guests at a party given them and attended by many important personages of the United Nations. Prince Feisal of Saudi Arabia is shown at the party chatting with U. N. Medistor Raible Banche. Obvious by their absence were the Irrard celegates to the U.N.

18.

uits a sense of romance was thrown into the Ontario shortage by the news of the possibility that destroys of other RON cart may be utilized to add a consider-nount of electrical mergy to the present diminished to the consideration of the consideration of the state of the consideration of the consideration of the state of the consideration of the consideration of the stelloy, Bobert Sunniers area. "Sides a base chairman of the ission, Bobert Sunniers area." Sides a base chairman of the ission, Bobert Sunniers area. "Sides a base chairman of the limit is should not be novel for as the chairman of the ministra, Robert Sauméra, say, "Ship, have plenty of r and you can imagine what a tremendous help an aff carrier would be . . I do know that power from the States destroyer moored in Pertiand, Ma, was in gency jobed ashers to light, by a five Extraordiction of the state of

large.

This is more cheerful news. Meanwhile enterprising the point on the list to at in the darkening early enter have been practing to cancels, have rescued from the large part of the content in the process in large or have acquired modern means of illumination other than electricity. Signs of such langs are now to be found in abops. Modern industry has been putting to use old plants for the development of power. If there is a way to overcomes the shortage in however small a part, there is little doubt that that step will be aken.

small a part, there is nince count usak and was any was teacher the paper of balleville there was no Tuseday the least reining regist that on Monday Belleville was one of the non-current desired that the size of the size of the concurrent desired to the size that on the concurrent desired current somewhat under the quote ask for the community. That is a sign, that energy can be saved. Monday is a day when the load is generally not so heavy but the fact; windows that consumption of that commodity, but the fact windows that consumption of the control of the chn swear tanges of the children was the kerosene was the regular fraid of the oil lamps.

Resourcerdiness and self-denial will go far in helping to overcome handlesps of issu-power existing today.

Cutting Brush

Cutting Brush:

Time to cill brush is during the ebb tide of summer, so countrymen say, Hightide of the season's growth has been reached; more the sap-out shoots are beginning to harden. Along miles of stonewall-lined roads, around side-hill fields, along pasture fences and meadow boundaries, the ever-eager forest extends its fingers each year.

Cutting brush is alow, puttery work, says a New York Times editorial. It calls for patience as one hooks the heavy, multipoide synthe sound a maple sampling, after about or clump of wirry jumiper. A generation sago good amount of the same of round not receive is anchestary for the brush that help central food-consuming innects and pests but brush still has to be cut in the pastures; the insistent power of patient forests has to be curbed around the fields that profuse hay and grain.

ce hay and grain. ceasing is the battle between man and Nature; that produce hay and grain.

Nower cessing is the battle between man and Nature;
never cessing the quest for just the right belance between
woodland and tillage. This is a walting interlude while
mysterious forces consolidate for the glory of autumn.

The Big Three in Accidents

Handling of materials, mechanical operations and falls of persons are the "fig three" among accident causes. This is revealed in a survey carried out by the Industrial Accident. Prevention. Associations of over 15,000 accident couring in Oniacio during the first eight months of 1948. This figures included some 1,000 cases in which infection

This name minutes was sure year.

Industry is urged to make a survey of the plants and to eliminate these and other causes of accidents, not only during the "No Accident" campaign in October but through the subsequent months.

Virtues go over in troops; so thick that semetimes some are hid in the crowd, which yet are virtues though they appear not. — Bishop Hall.

Buy Canada Savings Bonds with your maturing

War Savings Certificates You know now how regular savings can mount up . . . and earn

You can keep the money you saved and earned in your War Savings Certificates working for you . . . without a break

As your War Savings Certificates mature month by month, you can use them as payments on a Canada Savings Bond . . . another safe, sure investment that will earn you money.

And remember that while you can buy Canada Savings Bonds for cash or on the instalment plan, you can cash them at any time at full face value with interest to date.

See your bank or investment dealer about converting your War Savings Certificates into Canada Savings Bonds as they mature,

The HASTINGS & PRINCE EDWARD REGIMENT

The RESERVE ARMY Buttalion

of this famous regiment whose 1st Battalion distinguished itself as part of the 1st Brigade, 1st Canadian Division in Sicily, Italy and Holland, is now being re-organ-

Under direction of its able C.O., Lt.-Col, Reg. Abraham, recently appointed to take command, the unit's various armouries are being reconditioned, vahicles and arms brought up to establishment and recreational facilities for all ranks provided.

Young men 171/2 and over are invited to join now. Learn how to use Infantry weapons, wireless sets, drive tracked and wheeled vehicles. Pay is equivalent to that received by the permanent force.

Full information obtainable at the Battalion Headquarters, the Armouries, Bridge Street, or at Headquarters of the local company, the Armoury, Church Street, any night Monday to Friday inclusive.

NO FINER GARAGE SERVICE ANYWHERE AT ANY PRICE J. B. BOYCE & SONS

Innes comments.

Angular prepayment plans are doing a service to the public and hospital prepayment by putting this service within the reach of many who could probably not have been able to pay for like service previously.

With the propress call the result is anticipated of better, the state of the result is anticipated of better, the following the propile.

It is a far step from the day when the great majority of the people were treated and carde for in their own homes to this age when the hospital is entering into the full meaning of the service which it offers and which is implied its the word "hospital."

coupon below to your grocer

a Limited Time Only !

Mothers! Here is your opportunity to obtain two full-size tins of Libby's easy-to-digest. Buby Food, absolutely free. Just all in the coupon below and take in to your Libby desicer. Then partchase any two tins of Libby's Buby Food and, when you present this coupon, you grocter will give you from full-size time of Libby's—one int of Appleasace, and one tin of Cattard's Pudding—absolutely free. Act oney, because this ofter is for a limited time only. Engired Cotober 50th.

More Exciting News! A New Variety — PEACHES - has been added to Libby's Line of Homogenized Baby Foods!

Yes, Libby's Strained and Homogenized PEACHES are now available at your grocer's. Be sure and choose at least one tin of Libby's Peaches when you take advantage of this free offer. Baby will love their extra smoothness.

Remember! ONLY Libby's Baby Foods are Homogenized for EASY DIGESTION!

them.

This exclusive Libby process makes Libby's.

Baby Roods at least ten times finer in texture that
foods which are only strained. By breaking up
the coarse, irritating food fibres which often
cause digestive upsets when baby first starts on
solid foods, it removes the cause of indigestion
from these foods.

Clinical tests show that even a six-week-old baby can digest Libby's easily, without upsets. Libby's are the only baby foods which are Homogenized. Think what this means at the critical time when you start feeding fruits and vegetables! What a continued asteguard it is! And Libby's set the only baby foods which offer these extra benefits! HEY mum clip this coupon.

TAKE THIS COUPON TO YOUR GROCER

ONTARIO DITRILLIGIENCER, LE

Science Unfolds

nce is getting far ahead of many people but it is nazing work in saving human labor from tasks suld take months. Anyone who read the article in its issue telling of a new achievement of science, ays issue teiming or a new activement or science, the print fitts across the country with the speed of ag, realizes this. It means that every page of that ang novel "Goose With the Wind", 1,047 of them, can sed and delivered within the space of two minutes,

ing to man in his labors.

axcely a day goes by without something new being
ed in science for man's good. The laws of nature are
understood more and more with the result that inn crowds upon invention and attainment upon at-

mment. 1000, is showing his ability to handle these with which he is surrounded. Think of radar and ser new derices.

The amazing discovery of the powers of the atom and for use is rightly seen as one of the greatest of all steps imman history. Today much of man's thought is ison-fowards conirol of this wast atomic gower by agreem for fanctions.

Under Quota

Another day has found Belleville consuming somewhat electrical energy than has been allotted to the munici-ity. Wednesday saw consumption down to 101,587 watt hours, as against the quota of 104,000 kilowatt

By so doing the municipality has shown that con-mores here are limiting the use of their electrical devices and cutting off lights, and in other ways do what they can n issuing power when it is scarce. They are so doing a ser-tic to the Ontario Hydro System and to the Province.

Buying of Elephants

Boying of Elephania.

According to a new story from India, there is the posity of elephania in considerable numbers seeding buying elephania for the small sum of sixty dollars. India, I said that there may-sen, be furthered as cerebal elephania for the small sum of sixty dollars. India, which is the small sum of sixty dollars. India, which is the small sum of sixty dollars. India, which is the small sum of sixty dollars. India, which makes the small sum of sixty dollars. India six need a sixty of sixty of the small sixty of the sixt

the Orient, with orient and the state of the mobile creatures, mants have been one of the mainstays of the circus which have still a powerful appeal for everyone

se elephant in the parade or performing under the big For this creature has linked himself up with the en-mment world at least in the New World as well as ng his part in ceremonial in India. part in deremonal in maia. nts in the circus have held their own against all

sphanis in the circus hive held their own against all of attractions. But this is e_banging world and y the elephant, because of the difficulty of transparence of the control of their properties of the ther attractions can still draw olitanism of these institutions v

atisation measures in the princely states and nt 'curtailment' in the princes' standard of It will be regarded by most people, however, as a democracy that is of dublous benefit and difficult n," says Montreal Gazette.

YOUTH NEEDS GUIDANCE NOW!!

Never was it more important than now that every red-blooded Canadian should have the opportunity to develop a sound mind in a sound body, to fill his place in the community, to share its responsibilities and to be an asset and not a liabil-

The function of the Y.M.C.A. is to meet this need through a program of whole some recreation and instruction, worthwhile fellowship, and leadership training.

Building character, developing personalities, atimulating independence and creati ability and skills, and promoting sound Christian democatic living through an extensive and varied program of physical, social and recreational aceivities are the methods of the Y.M.C.A. There is an actviity of interestfor everyone.

AT ITS BEST

COMFORT-for you

People with an eye to the future are choosing the car with a past—the big, exciting, dynamic Oldsmobile latest achievement from the continent's oldest auto

They're saying Oldsmobile is bound to be better, for Oldsmobile has been building finer and finer cars for over fifty years. So with this extru

experience, it's just natural for Oldsmobile to stay out in front—to be first so regularly with the features car huyers really want, like famous GM hydra-matic drive.* Check every point that really matters: comfort, beauty, thrift, performance-you'll find that Oldsmobile

wins easily! Then you'll know why it's smart to own an Olds.

October Darkness on Roads
A driver's bright if he dims his light. More hours of
toness now mean more danger from blinding headlights,
Ontario Highways Department warns everyons,
orist and pedestrian. Good advice is this, "Lower your

the Onizato Eliginaya Department warra erezyona, intotrict and pointerian Good active Istin, "Gover your beadingst beam for the driver you meet whether he does not. Don't yep for subborness with a head-on-rash, it is best to slow down at sun down."

Late October afternoons have a record that it not certainly. The Highways Department Indicate that from fore for the october is the time when are reducted that it may be a form to the october in the mean that the october has in any other than in any other than in any other than in the Department issues the old to which out for children on the treets all the time, but expectally in the late afternoon at this season of the year.

The Wheel

Barly age man had simply to disor the principle of the wheel. He found out had simply to disor the principle of the wheel. He found out had simply to disor the principle of the wheel. He found out had the sheel has become dominant. Today It is linked up with the great motor industry, with engineering and every sort of invention.

This is an age when the world moves on wheels. The modern wheel is in many forms, but the principle is the same as the

admiration. Wheels bear the loads. To the man who saw faintly the possibilities of the first wheel there is owing a debt which really to be estimated would mean all modern development.

Ansiversary

Ansiv

"Blood and Fire."

The march forward of the Salvation Army is one of the achievements of world history. The flag now flies in almost one hundred countries, signifying the carrying onward of evangelistic and social operations of this religious

The first fing used in Canada will have a place in the pageantry to be held in connection with the congress. Musical festivates by hains, and singers, evangelistic meetings will be carried out in the typical manner of the Army. The Salvation Army's service to the spreading of the Gospel and the tireless and devoted endeaver of the members in the redemption of lives, religiously and socially, makes an amanting page in modern history. Nothing quite like it has reached so many millions of people in consistent of the control of t

o world history, leaving its marks of service verywhere in a class of the lives of millions who owe so much to the organization, which labors unsuffishly and oppound for the betterment of the world, society and individuals.

MAILS BY HELICOPTER

Experimental night flights are being made in British phelicopters working on the delivery and collection of mails. These tests follow the success of triats made a about time ago on the daylight carrings of mails by helicopters at a price on suitable and the daylight carrings of mails by helicopters at a price on suitable with the process. The service of the daylight carrings of mails by helicopters at a price on suitable with the process. The service of the se ways Corporation in conjunction with the Fee once-During the last four months helicopters have made 100 de-liveries and collections over a range of 270 miles. On three occasions only were flights behind scheduled time.

T. A. TUCKER

To The Citizens of Belleville & District

DEAR FELLOW CITIZENS:

On November 11th, annually we are given an opportunity to honor those brave men and women who paid the supreme sacrifice so that we may live in Freedom.

At this time we should also remember those men and women of our Armed Services who were maimed in World Wars 1, and II by purchasing a wreath to be placed on the Cenotaph at the Remembrance Day Service. All wreaths are made by disabled Veterans and all proceeds are used to asist neoty Veterans and helir families in the Belleville Ostrrict. Wreaths are available at \$1.30, \$3.00, \$2.00, \$3.00, \$1.00,

If you have not already purchased a wreath, please do so without delay. Orders may be telephoned to or left at the Bank of Montreal, and for telephone orders please contact MRS, YOUNG, Telephone No.

War on Cancer

Research has set us forces upon getting at the mystery
of cancer. There is a sufficient cause, for cancer has risen
srom seventh to second place as a killer of human life. There
is the challenge which has come to cancer invested as
as very mystery is an urge to united effort of medicals
and scientific investigation to get at the secret of this dread

disease. Much has been achieved by what has already been seried of the nature of cancer and this offers the hope that intensified study will reveal means to prevent or con-

New Type of School

Three schools of an entirely new type have been openin British to curry out an important experiment in educa-

There are mixed classes for boys and girls between 11 to 4.8 years of age. Hitherto they have had separate such many control of the second of

to this time.

There is a reason — "at 11 a child may not have an examination temperament and may full dismally. This failure may penalize him for a long time, not only denying him grammar school and university education, but also shattering his confidence."

shattening his confidence."
Many in Canada can remember when they had to pass examinations every step of the way of their progress to-wards statisning training and education. But times have changed as the British step indicates.

There is about a normally given a considerable of 30 to 35 pupils under the new system. They are snappl normalines by a limit of the step of the ste man and sometimes by a woman teacher. Besides boys and girls may sit side by side or separated entirely at the teach-er's discretion. The opinion is that most of the teachers will adopt the method of placing one boy and girl at each

was anope the memor or placing one way and girt as ecolorism.

Now the course will take he form of a course comblining what is now taught in three separate types of grammar, technical most appearance of the course of the cours acquire self-discipline.

acquire self-discipline.

The new schools will each have about 1,250 pupils. The London County Council plans for 103 of them to be built in their area provided the experiment is a success. The trend of modern education cannot but make those who went to school, ten, twenty, thirty, forty or fifty year ago with that the training of their day had been aimitar to the trends of the preent age.

Faster Than Sound

Speed of a plane faster than that of sound has been achieved. In Strain Squadron, Leader John Derry, a de Havilland test pilot, in a DH 108 jet aircraft, surpassed the speed of sound in a power diversion over 30,000 feet and set the record of the first man to fly at supersonic speed in an orthodox aircraft. Speed of sound waiter from approximately 700 miles an hour at sea level to approximately 700 miles an hour at sea level to approximately and constant. The 30,000 feet, above attained a speed, in the constant of the speed of a great height by a parent aircraft. The DH 108 which was a normal turbo-jet engine, took off from the ground under

its own power. The H 108 is a swept-back wing, tailiess aircraft pow-fred by a single de Havilland Goblin jet engine, which de-velops 12,000 horsepower. It was designed to provide re-search data for a 500-mile-an-hour 32-jessenger four jet-engined airliner now being constructed at de Havilland

works.

There have been three DH experimental swept-tack
wing, tailiess aircraft built. The first one was purely experimental, the second was that in which Geoffrey de Havilland lost-his life two years ago when it broke up in the
air when he was carrying out tests prior to making an atair when he was carrying out tests prior to making an ac-tempt on the world's speed record. Derry's plane is the third. It was in this latter craft that Derry captured the international speed record last April for the 100 kilometer closed circuit with a speed of 605.23 m.p.h.

Good reading for how many people?

Now an new before people are discovering that the printed word, with he worlds of information and extertainment, is a priceless aid to fuller, happies worlds of information and extertainment, is a priceless aid to fuller, happies living, bo they are resting more nonexpaper, magazines and books revery year! To hely most this increasing demand for reading material, Conda's year public and paper industry is expanding—thanks, in part, to your life hoursmoon. How can this be?

Because part of the money that you and millions of other policyholde in to life insurance companies is invested for you in sound Canadian Indus such a the pally and paper industry.

The life insurance odlars are put to work, through investments in to help provide highways, whether, hathours, or other public works.

us every life insurance owner protects his family and helps to build a bettes, prosperous Canada !

A massage from the Life Insurance Companies in Canada and their Agents

. It is good eitisenship to own LIFE INSURANCE

EVERYBODY wants Flavor in Coffee

But only Maxwell House has that "Good to the Last Drop" Flavor

Secause flavor counts so much in coffee, Maxwell House is bought and enjoyed by more people than any other brand of coffee in the world at any price.

MAXWELL HOUSE HAS EXTRA FLAVOR because it contains choice Latin-American coffees — the best

WHAT PRICE

Democracy is without price . . . no one can ever take It for granted or assume it is paid for in full! It is an inheritance we are duty bound to pass on . . . not only to the next generation, but to our fellow men everywhere who have yet to enjoy its full benefits.

Democracy grew from a great ideal . . . that all men are born free and equal and are deserving of the same privileges. It can live on only if we constantly strive to fulfill this

Moderation is one of the chief safeguards of democracy. By being moderate in our thinking, in our actions, and in

As The House of Seagram has so often stated, by being moderate in all things, including the enjoyment of whisky, we are acting for the common good.

> Men who Think of Tomor Practice Moderation Today?

DEMOCRACY?

ideal and protect the priceless freedoms won

our pleasures, we are living democratically.

PUBLIC NOTICE

We are having many inquiries as to mer-chandise which was in our store at the time of our fire and when it will be on sale. This will be good news for our many friends and customers when we sell you that we have made satisfactory arrangements with our in-surance companies and that about \$10,000.00 worth of this merchandise will be offered to the public just as soon as we can get it ready.

This will consist of RADIOS, WASHERS, REFRIGERATORS, RANGETTES, TOASTE-ERS, HONS, RANDWICE TOASTERS, PRES-SURE COOKERS, MUSICAL INSTRUMENTS of all kinds, including PIANO ACCORDILANS and PIANOS.

We might say that at no time was there any fire on the main floor of our store, so the ismage is only water and smoke.

If you are thinking of any appliance or musical instrument, it will pay you to wait for our sale.

ONTARIO

OSTUBLIO DETELLIGRISCER, LIMITEE

on is exclusively existing to use for republication of all a dried to it or in The Associated Press or Resistant, in this m

Franz Lehar

is not strange that men who have given to the
wealth of thought and melody like the poets, noveland muticlans and componers leave behind them menof which men and women will not grow weary,
there has just passed from this earthy seen a figure
music world, Franz Lehar, whose operais "The
men world, Franz Lehar, whose operais "The
Which increases the sumbtaid of pleasure and happin."
It is almost forty-istree years since this operatis took
rough by storm. Instantaneous in its success, it has
untily that endures. Millions upon millions of people
the lytics from this operate and others.
In Franz Lehar there is one of those men who are
present that their works are deal and intunes for good.
The middle to capture the hearts of mankind and enter
their rouls," he said, for his all was more than mere

r souls," he said, for his aim was more than mere
nt. And so it has proven to the world. Not all
have the intense satisfaction of being able to say, can have the intense satisfaction of being able to say, did recently, "The hundreds of letters I received from er the world testified I was successful in doing so and my life's labors had not been wasted." eshar could truly say this and his words are backed up a fact of his success and the acclaim which he won

nged to that musical race, the Hungarian m have come so many notable artists.

Employment Peak

It is really not news to the people of Canada that em-ment has hit the highest in the nation's history, with \$5,000 persons gainfully employed. From all accounts if from what can be seen everywhere there is this unpre-ented development at work in the Dominion. Co-incident with rise in employment is this that unemincident with rise in employment is t at across Canada has dropped 67,000.

Injured by Bottle Thrown- from Car

Injured by Bottle, Invoyat- from Car A Centerville girl was injured the other evening while inding on the edge of the highway near her home when a tile was thrown from a passing automobile. The bottle runk' the parennent and crashed and a piece of the glass uset the girl in the face causing lacerations. Throwing of anything out of a car window may cause acidenic of a serious nature, and it is to be regretted at some persons are so thoughtless as to get rid of a tile by hurling it through the opposed window of the car

which they are riding. Such an action is reprehensible endangers the public. The public has the natural right to be safeguarded

such recklessness on the part of those who throwing out of an auto. The latter have no means of thing out of an auto. The latter have no means on ing whether what they throw out will do any damage nigury. Such an act might well cause a car wreck for hurler of the bottle cannot be sure of his aim owing to hurler of the act of a receiving vehicle. Such a deed is

is examped position in a moving while. Such a deed is urally against the law.

The injury caused in this case should be a warning to it to control their inclination to get rid of bottles or any-sing class by doing what the offender did in this case. There are other wary all disposing of bottles or wrapping apper or whatever else those in cars do not want; way hat are justified and will not cause arryone injury.

Britain's Harvest Above Average

A report issued on October 11th by the Ministry of a friend new form of the third present of the possession in this word is the possession of the possession in this word is the possession in this ar's crop was only 15.2. Barrly crops are forecast as 19.3 kg, per acre, as against a ten-year average of 17.8. Per acre, as against a ten-year average of 17.8. Per hand there are many books they be to the core of the core

Try to make at least one person happy every day and then in ten years you may have made three thousand, six hundred and fifty persons happy or brightened a small town by your contribution to the fund of generay enjoy-Sydney Smith.

GOODYEAR'S NEW KIND OF TIRE GIVES STILL GREATER SAFETY!

On slippery winter roads—in mud and snow and slush—you'll be glad you switched to Super-Cushions by Goodyear I Recause they're bigger and softer, run on only 24 pounds of air, Super-Cushions put more of the time-proved All-Weather tread on the road, where it counts most, for increased traction and skid-graitenape.

Super-Cushions' big, husky, deep-slotted rubber diamonds meet the road at an angle that means grip and stop—no matter which way the car wants to slide. Naturally, Super-Cushions mean greater blowout protection and increased mileage, tool And they'll white repair bills to an all-time low, by cushioning your car from shocks and bumps.

Remember—tires bought at this time of the year will give you up to 25% longer wear. That's because winter's cold wat pavements and slower speeds keep tires from heating up. And the cooler the tempera-ture, the slower the wear.

The new Super Scushion Z AMOST LITE S

Cotober the scath hatches are not seen and well in the minds of autumn hat been the goal to have and well in the minds of autumn hat been it is good behavior so he this year though temperatures recently have been alightly below those of its year. It is nearing its closs. To the Canadian October is one of the richest months in the year. It has been and is a month of univalied splender in natures. It is a time which herside the combine of that angues of easy of summer long stines past and with its wistfulness which herside the combine season can quite rival. It has won a name with a special significance to nature observer of whom there are naturally many in Canada. Then it contains that joycus historious festival of Rablowsko, then it contains that joycus historious festival of Rablowsko, then it contains that joycus historious festival of Rablowsko, then it contains that joycus historious festival of Rablowsko, then it contains that joycus historious festival of Rablowsko, then it contains that joycus historious festival of Rablowsko, then it contains that joycus historious festival of Rablowsko, then it contains that joycus historious festival of Rablowsko, then it contains that joycus historious festival of Rablowsko, then it contains the substitute of the contains the substitute

"No clouds are in the morning sky,

The vapors hay the stream,
Who says that life and love can die
In all this northern gleam?
At every turn the maples burn,
The quali is whistling free, The partridge whirs and the frosted burs

Are dropping for you and me. Hol hillyhol heigh O'

In the clear October morning."

After October comes November still an autumn month but with the characteristics of late autumn and hints of inter deep and cold.

Seas Bocome More Salty

Fredous rains which are carried across continents to
replenish the senth with motiture and notirith plant and
salmal life are part of an endiess process which has been
going on almost sinces the birth of times of the servery
and the servery of the servery of the servery
and the servery of the servery of the servery
and it is borns across the earth by winds and
clouds. Then it drains off into giseaus, rivers and the
great waterway systems of finder lis way into subterranean
anamels working down to the seas. On its way preclous
salts, including those of alver and gold, are borne down in
solution in the streams and deposited in the sceams and

The salts are not evaporated but remain in the water while the moisture drawn up by the sun to form clouds is carried back across the world to its farthest ends. Now the

ADVANCE with the You're on your way up if you take advantage of the technical trains

and education that are available to you in the R.C.N. There's a place to-day for men who can advance with the Navy . . . who will fit elves to take on added responsibility and higger jobs.

Rates of pay have been increased and your pay rises automatically with length of service. It's a career that can satisfy your pride and ambition.

There's lots of variety in Navy life too . . . you sail the wide seas . . . visit other countries . . . live and work with fine fellows . . . and each year you are entitled to 30 days leave with full pay. What's more, you can qualify for a generous pension on retirement. Canada's Navy is a growing

British Program of Recovery

The United Frogram Covernment has announced a gram of recovery based on the use of ERR, aid, the many purpose to which the aid will be put will be to Britain's dollar balance of payments problems, says

d Kingdom Informattion Office.

There would virtually have been no deficit — and thus There would virtually have been no deficit— and thus dollar problem—says the Government While Payer pictors of Rittalian imports and expect and the process of Rittalian imports and expect the fore the process of Rittalian imports and expect the first process of the process of

The itse in industrial an degricultural production is to intime, although not at as great a pace as last year, pricultural production is expected to be about 35 per cent. for the pre-war, compared with 25 per cent. in 1847-48. Coal admiction will continue to expand at a rate of about? per sit, white the growth of macutaristical employing, espec-pited in some directions by new particular analysis, espec-try steel.—will probably average 25 per cent to 30 per

Enterprise

Something new has been attacked and solved by sitish mining engineers. They are freezing a section of the earth's surface to a depth of over 400 feet. This is a

se earth's surface to a depth of over 400 feet. This is a separatory step to the opening of a new mine of coal to will probably produce one military of the will probably produce one military of the prefiguration. The reason feet the prefiguration of the second of the probably of the pr

be carried on.

Mean's ingenuity and knowledge of science are here beput to the test with the expected results of a success-

Accidents

Reading the toll of accident after accident in traffic reading the toil of sections after accions in trainic reader cannot but wonder just what the causes of the shaps or stabilities were. Ottawa Journal, speaking of t weekend's toil in Ontario of seven killed in trainic sectto weeken s tou in Ontario or seven kined in traine secties, says that there were many other sectients causing unies short of death and heavy damage to property and ted that "thousands of automobiles travelled safely in a short of death ann new properties travelled safety in reskend for every one that came to grief—that safety bination of good driving and good luck. Not every reckless driving or thoughtlessness is punished by an int. 'Then it notes that 'more in a blue moon there is ak in the vital mechanism of a moving car and, rule when the safety of the control of the control of the safety of the control of the control of the control of the safety of the control of the control of the control of the safety of the control of the control of the control of the safety of the control of t

seak in the vital mechanism of a source mont there is driver's viewpoint what happens then could not be restricted. But the vatar majority of accidents involve the man factor and there is a point in the circumstances dring to each of them when better judgment, greater long to each of them when better judgment, greater Coffecting the heavy foll in traffic are those careful ears who are the said of the earth and the men and wo a who co-operate to make the roads safe by obeying: y rule and using sound judgment and good pusible, is people can drive long that an accident in their long or of driving. A large share of the driving public be-gret this class.

Britain has taken a world lead with a revolutionary use sited process. It has been known for 170 years by separatise in the seel laboratories that orgam may be used to produce higher temperatures more efficiently, but only how have they been able to put his practice that theory. This, it is claimed, will raise the output by after per produce the making of labor quality located in the use of a greater than the contract of the product of t

COLD VACCINE plus VITAMINS

For any size of tin or cannister ready for scooping - measuring levelling off ingredients. You'll probably use the large one for flour - it piles it so accurately, so lightly in the measuring cup for better cake and cookie making. What handier than the medium size for your sugar tin? ... or the small one for sprinkling bread crumbs over a casserole and many other uses?

TO GET THEM USE THIS COUPON

(A) Enter in space above the number stamped on the het-tem of the sin you buy ... (B) Cut out and onclose with the sin you buy ... and mail with 25¢ to: Maxwell House Coffee, Dept. 71
Cobourg, Ontario.

That's all! Your 3 scoops will be sent without delay.

Science and Cancer

Cancer which occupied seventh place some time ago killer of life has taken second place among the deadly asse. The tragedy of cancer toll is not only its great above of human victims, but also the fact that it is a ding and insidious disease and strikes people down who ise live for many years.

newise live for many years.

ern science is on its trail and research is steadily
more and more out about this mysterious affliction.
public is aware of its inroads and knows that they
an all-out battle with this enemy of life. There is
g attention to the disease, to the means to be used and attenuou to the disease, to the means to be used ect one's self by taking advantage of the opportun-we available and there is the growing realization that must be more and more money expended for re-

note. The disease is not confined to one country but is a vircual course. Every step forward helps on to the goal she it is hoped to reach through investigation and re-earch — to unfold the mystery of the disease through the sentless forces of science and human knowledge. Scien-fie men and women are giving a great deal of attention the advance of investigation. Present knowledge of uncer is placing at the public's service means which cut were cancer's tail and saws lives. 's toll and save lives.

ancer's ton and save lives. The and more means will be put at the disposal of the ations of science and health which head the effort d out the mystery of cancer.

and out the mystery of canoer.

Discoveries of great import in the case of other diseases we worked marvels in cutting down the death toil and resems no reason why if man is able to expose the sizery of atomic energy and control it, he should not be to get at the heart of the cancer mystery. When that dawns, it will be a day of the greatest importance.

Meanwhile all should thus dawnating of the means at

ascanwhile all annuld take advantage of the means at it disposal, eyen at this time, which prove that the havoc cancer can be reduced. Already present knowledge is ling years to lives by taking safeguards of present mea-ses in cancer childra.

they render.

The campaign executive emphasizes the fact that no subscription will be too small. Every donation will help in attaining the financial objective.

Anecdote From Yesterday

In his just published book based on the Hopkins pa-s, Robert E: Sherwood tells a revealing anecdote, says ristian Science Monitor. During the darkest days of war, Frankin D. Roosevelt sent a cable to Winston urchill saying: "It is fun to be in the same decade with

Decades change. Great men come and go. Dark days ten for some, grow darker for others. Millions plod right toward an uncertain end. But a young and power-pation, brimming with exuberant energies, can still the across the seas to the sudacdous, pugnacious courage retinary people fighting a day-by-day battle with defeat-and say to them, warmly, reassuringly:

It is fun to be in the same world with you."

This Mother Learned What Emergency Lighting Means

Racing through the storm was bad enough. Then came the blinding flash of lightning that plunged the entire area into darkness. But up ahead, a single building stood out like a beacon. It was the bospical . . . and what a relief to find the lights still on.

This hospital was safeguarded against lighting failure, which can happen despite all precauties of utility companies. It was equipped with an emergency lighting system, powered by EXIDE Batteries which insteady and automatically sakes over the emergency lighting load when normal sources fall.

What better guide could you ask when selecting a battery for your car? With EXIDE you drive secure in the knowledge of herman dependable EXIDE battery power, no matter what the driving conditions.

It pays to visit your EXIDE dealer regularly. He will help you to get the most out of your present battery. Only when you need a new one will be recommend the proper EXIDE to meet the electrical requirements of your case.

UEFB MOBILIZES TO GIVE BRITAIN STRENGTH .. IN COLD WAR TO WIN THE PEACE

REASON FOR WEFE-

The gallant people of Britain are suffering today because they are determined to win the cold war. They are the only nation in Europe fighting with body and mind to vanquish the spectre that haunts the Old World.

The people of Britain are not complaining. But their health is being weakened . . . their efficiency impaired . . . by the tremendous restrictions they have imposed upon themselves. In their determination to win the cold war, they stand in danger of being defeated by undernourish-

Undernourishment is the greatest danger of every person living in Britain today. Why? Because Britain imports four-fifths less goods than before the war, yet exports more than half as much again as in 1939.

YOU can join with EVERY other Canadian in helping Britain fight this enemy. UEFB offers you the best means of making your aid to Britain effective now.

UEFB is a voluntary organization set up to collect, forward and distribute aid to the undernourished men, women and children of Britain, UEFB purchases supplies in bulk. The British Government supplies free trans-portation. And through the UEFB British Advisory Council you can be sure that your dollars will buy what is most needed for those who need it the most.

Although UEFB has no facilities at present to handle used clothing, arrangements are being made to put these into operation early next year.

Says the British Ministry of Food:

"... we are living on marginal nutritional standards, and there is cause for anxiety less this should be having adverse effects on physique and bealth . . . Everything you can send us is wanted and urgently wanted."

YOU can't afford to let the British people down. If they go under YOU, and all of us, will feel the effects. We need a strong Britain to help fight the cold war. Give generously to UEFB-TODAY.

GIVE BRITAIN STRENGTH!
